

# THE LEGALCONNECT® PLATFORM

LegalConnect® streamlines, coordinates and connects the work of employees, vendors, customers and courts in a single, secure online solution. Plus, its built-in back-office features help litigation support service companies master the business side of their organization for smarter operations. Even better, LegalConnect gives you access to eFiling and an interconnected network of partners to better compete and extend your business reach.

With **LegalConnect**, you get this and more:

## Account Registration Wizard and Customer Portal

LegalConnect's sign up wizard and integrated customer portal enable your customers to create new accounts, place orders, manage their cases, retrieve order statuses and more online anytime, anywhere.

## Operations Portal

LegalConnect's order management dashboard organizes critical customer, order and vendor information so your employees can easily stay on top of work. Quickly prepare and dispatch orders, enter status communications and send deliverables to customers like Conformed Copies and Proofs of Service. Vendors can also log into LegalConnect to receive and update orders for quicker completion.

## LegalConnect Payments and QuickBooks Integration

LegalConnect maintains PCI compliance and seamlessly integrates with payment gateways and Quick Books Online so you can securely manage billing from start to finish. Plus, LegalConnect's finance management dashboard centralizes advance check information, disbursements and reporting.

## Reports

See how your organization is performing anytime with simple reports that give insights into orders, invoices, commissions, expired credit cards and more. Plus, get reports based on user and order data giving you and your customers insights into court eFiling turnarounds times, court acceptance rates, staff utilization and much more.
